

# BHAGALPUR COLLEGE OF ENGINEERING, BHAGALPUR

PO. SABOUR  
BHAGALPUR, Bihar -813210  
Website –[www.bcebhagalpur.ac.in](http://www.bcebhagalpur.ac.in)

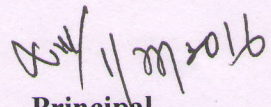

## Corrigendum: Tender No. – TEQIP-II/2016/BCE01/04

Our Institute is dedicated to create a centralized Digital Library on the internet Cloud, thereby facilitating the learners and Instructors to retrieve lecture from anywhere within the campus and outside the campus on internet at any time. For achieving this efficiently each department is assigned into a dedicated channel, wherein the learning resources on the respective topic are delivered automatically. Thereby, allowing the varied departments to work independently yet in collaboration with each other.

The instructors get the relevant digital resources such as animations and videos, interactive virtual labs tools etc. and use them as a part of their lesson plans in every classroom period. Learners can use the digital library to view content at their own choice post class hours.

The basic aim is to provide a complete system with easy to use interface which will manage all videos, reference document, resources, digital content to centralize all the learning recourses of the institution and provide end users a unified platform for viewing. The applications will facilitate easy management/ creation of resources and serve the lectures on demand.

It was not clearly spelt in the Bid document uploaded in our Web Portal: [www.bcebhagalpur.ac.in](http://www.bcebhagalpur.ac.in). Therefore, Bidders are required to quote the price for facilitating the digital resources online only not for offline. The other terms and conditions for digital library and language lab will be remained same.
