Sir,

I am writing this letter to make you, the faculties and students of your institution aware about SWAYAM. SWAYAM is a programme initiated by Government of India and designed to achieve the three cardinal principles of Education Policy viz., access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged. SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy.

The courses hosted on SWAYAM are in 4 quadrants –

1. Video lecture
2. Specially prepared reading material that can be downloaded/printed
3. Self-assessment tests through tests and quizzes and
4. An online discussion forum for clearing the doubts.

Steps have been taken to enrich the learning experience by using audio-video and multi-media and state of the art pedagogy / technology. NPTEL has been made National Coordinator for engineering studies.

Courses delivered through SWAYAM are available free of cost to the learners, however students desiring certifications will have to register online. Registered students will be offered a certificate on successful completion of the course, with a little fee. At the end of each course, there will be an assessment of the student through proctored examination.
